## About This Game

To get the King's Crown and save the realm Brave Lord has to face the ghostly apparition of Lord Grave and break through the deadly rooms of the Royal Palace fiercely protected by countless trap mechanisms.

Killer Chambers is an action-platformer/memory-game hybrid. You must survive in small rooms filled with traps until one turn of the hourglass.

Beware, even if you're hit only once you die! Can you hold out against an unforgiving bullet-hell in a narrow space?

Nothing is left to chance, every trap pattern is made to be challenging yet fun to solve but quick reflexes alone will not be enough to survive.

Arm yourself with masochistic persistence and good (muscle) memory, the King's Crown awaits you!

## Game Features

- Fast-paced and tough action-platformer with puzzle and bullet-hell elements.
- Over 40 rooms, each one with 3 levels of difficulty.
- 5 floors with unique traps and bosses.
- More than 500 finely tuned trap patterns.

- 
- A funny story told by dialogues in a visual novel style.
  - Many items to help Brave Lord in his adventure.
  - 12 hats that grant you special powers, as long as they don't fall from your head!

Nice game with an uncommon mechanic and fitting art style. However, I disliked the curse levels. They are an additional punishment for an already hard game. Definitely not for everyone. Dev seems nice tho.. First impression review after 50 minutes:

Concept & idea: 9/10

Gameplay: 7/10

Graphics: 6/10

Music & Sound: 5/10

Twitch Chat Vote: 7/10

Overall: 7/10. I just got through the first world -

10/10! - and i usually don't play this kind of games

- Cheap price for high quality content
- The art is great
- I'm loving the soundtrack
- The gameplay is incredibly entertaining - even though it becomes infuriating at times
- Funny story and interactions between the characters
- If you are looking for a way to challenge yourself - this is the game for you!
